

Democratizing Motion Gaming for the World

*Transform any device with a camera into a
full-body gaming console*

THE PROBLEM

High Interest, High Barriers

People love motion games

- Proven by **100M+ Wii sales**
- **35M+ Kinect units** sold

HIGH COST

Hardware costs \$200-500+
Accessibility barrier for mass adoption

SPACE & FRICTION

Need dedicated gaming areas
Complex installation and calibration

DEVICE LOCK-IN

Works only with specific hardware
Limited ecosystem compatibility
